

# NJ-805

Enjoy your Printing on Demand!

## NJ-805 Handheld Inkjet Printer

This handheld printer is fully portable, compact, lightweight, battery-powered equipped with HP45 technology cartridge. Designed for users who value the ability to label, mark or sign their products flexibly without being tied to time or location. This is also the right device for users who set high demands in terms of purchase price and economical operation without requiring an extremely extended range of functions. Nevertheless, the NasaJet™ NJ-805 model has all the basic functionality of the Ink-Jet printers.
